

# Fatih Erkam Corumluoglu

📍 Kiel, GERMANY 24118    ✉ fenererkam@gmail.com    ☎ +49 1573 9659088    in fatihcorumluoglu

## Professional Profile

Cybersecurity Specialist with an academic background in Electrical Engineering and in-depth expertise in **ISO 27001 (Lead Auditor Exam Certificate)**. Specialized in the intersection of GRC (Governance, Risk, Compliance) and defensive IT security (SIEM, Incident Response). I combine analytical engineering methodology with practical threat detection and procedural hardening. Goal-oriented practitioner with eJPT certification and a deep understanding of regulatory requirements (e.g., NIS2) in the German market.

## Certifications (Selected)

- **ISO 27001:2022 Lead Auditor** (Exam Certificate - 40h Accredited Training)
- **CompTIA Security+**
- **eJPT** (eLearnSecurity Junior Penetration Tester)
- **TryHackMe: Top 1% Global** (Focus: SOC Level 1, Junior Penetration Tester)
- ISC2 Certified in Cybersecurity
- IBM Cybersecurity Analyst Professional

## Professional Experience & Further Education

### Intensive Specialization: Cyber Defense & Offensive Security | TechPro Education

Remote  
May 2023 – Dec 2023

- **Over 1,000 hours of documented practical experience** in lab environments and real-world scenarios (including SIEM monitoring, pentesting labs, and bug bounty programs).
- Monitoring and analysis of security alerts using **Splunk** and **Wazuh**.
- Forensic investigation of network traffic via **Wireshark** to identify C2 communications.
- Execution of incident response workflows in **TheHive** and threat modeling according to the MITRE ATT&CK framework.
- **System Hardening**: Configuration of **Active Directory** Group Policy Objects (GPOs) to enforce security best practices.
- Analysis and simulation of technical attack vectors using **Metasploit**, **Nmap**, and **Burp Suite**.
- Targeted exploitation of **OWASP Top 10** vulnerabilities (SQLi, XSS, IDOR) in laboratory environments.

### Outlier AI | Technical Quality Assurance (Technical QA)

Remote  
Oct 2024 – Apr 2025

- Validation of technical AI models through Reinforcement Learning (RLHF) with a focus on logical consistency and technical precision.
- Ensuring data integrity and compliance with complex project guidelines in technical training environments.

## Education

### M.Sc. Christian-Albrechts-Universität zu Kiel, Electrical Engineering and Information Technology

Sept 2021 – Present

*Focus: Information Technology. Includes 4 "free semesters" due to COVID-19 special regulations. Currently pivoting toward practical cybersecurity due to the high theoretical content in the current curriculum.*

**B.Sc. Karabuk University**, Electrical and Electronics Engineering (Recognized Degree)  
GPA: 2,2 (in German Grading system)  
Thesis: Image processing-based automation system for object separation.

Sept 2014 – May 2019

## Skills

---

**Compliance & GRC:** ISO 27001 (Auditing & ISMS Frameworks), Risk Management, IT Security Legislation.

**Technical Security:** SIEM (Splunk, Wazuh), Log Analysis, Wireshark, Metasploit, Burp Suite, Nmap.

**Infrastructure:** Linux/Unix CLI, Bash & Python Scripting, TCP/IP Networking, Active Directory, Virtualization (VMware, VirtualBox).

**Languages:** Turkish (Native), English (C1 - IELTS 7.0), German (B2).
